Nearaway Farm,
Perrineville, NJ

Whether You Are a Beginner or an Experience Rider... Whether You Trail Ride or Show Your Gaited Horse... THIS CLINIC IS FOR YOU!!

Master gaited horse trainer and bestselling author, Training The Gaited Horse "From The Trail to the Rail," Gary believes that real gait comes from balance, posture and impulsion of a horse, never from what's nailed on his feet or other crutches. Gary uses a foundation of training based on the understanding that movement achieved by mechanical aids do not last and may actually be detrimental to the horse, while classical and natural horsemanship allows a horse to brilliantly improve each and every year he's ridden.

But applying these beliefs, Gary has developed

solutions for gaited breeds that consistently correct and improve balance, gait and athleticism and produce horses that are softer, happier and more correct in their movement, while giving riders the tool to help their horses release their inherent gaiting abilities.

Now is the chance to have him work with you and your horse!

Clinic Cost for Weekend (2 days): \$500

Private or Semi Private Lessons on

Friday, October 18th

Limited Space - Make Reservation Early!!!!
